PERSONAL PROJECTS

SITAMS Mobile Application (01/2016 - 03/2016)

- This application is developed for my college to make communication between administration and students/faculty hassle-free. <https://github.com/gondhijagapathi/Sitams1>

Home-Budget-Rest API. (01/2021 - Present)

- Developed a Rest API to insert my house spending's into MariaDB and visualize the data with Grafana. Server is hosted at Home, ran by an Ubuntu server (ran on NUC computer)
- Android application is acting as a frontend to input data.
- Code Link : <https://github.com/gondhijagapathi/home-budget-rest>

Home Lab (01/2021 - Present)

- I run my own home lab (Raspberry Pi and Intel NUC as a server) to host and test various Services and open source projects to gain knowledge.
- I run Services through Docker containers. The services include Home budget app , Ad blockers, Nextcloud, ProxyManager and run windows VM on standalone Proxmox server.

ACHIEVEMENTS

Awarded with NOTT award twice for above and beyond performance in the strategic projects in the team (Cerner Healthcare).

Won the first runners up place in the SHIP-IT contest- a companywide innovation programming contest (Cerner Healthcare).
